

November 14, 2013

To Whom It May Concern,

Elastomont and Polycorp have enjoyed a long and successful business relationship in the protective linings industry. They have installed many of our lining products including natural rubber, neoprene and chlorobutyl materials for customers in a wide variety of industry segments.

Elastomont has a reputation for quality workmanship and good technical knowledge. We look forward to continuing to work with Elastomont and helping them meet and exceed their customer's requirements.

Sincerely,

A handwritten signature in black ink, appearing to read "Dennis Nolan".
